Professional Summary

Computer Engineering graduate with strong expertise in Python, Web Development, and API integration. Experienced in building scalable applications using Flask, React.js, and SQL databases. Skilled in writing clean, efficient code and solving real-world problems using Data Structures and OOP concepts.

Technical Skills

- **Programming Languages:** Python, C++, JavaScript
- **Frontend:** HTML, CSS, React.js
- **Backend:** Flask, REST APIs
- **Databases:** SQL
- **Tools:** Git, GitHub, VS Code
- **Core Concepts:** Data Structures, OOPs

Projects

Jarvis Voice Assistant (Python)

- Developed a voice-controlled assistant using Python to automate system and web-based tasks.
- Integrated speech recognition and text-to-speech for interactive communication.
- Implemented features like Google search, YouTube playback, news updates, and system controls using APIs.

Google Translator Desktop App (Python)

- Built a desktop application using Python and Tkinter with an interactive GUI.
- Integrated Google Translate API to enable real-time multi-language translation.
- Designed efficient user input handling for seamless translation experience.

Movie App (React.js)

- Developed a responsive web application using React.js.
- Integrated external APIs to fetch and display movie data dynamically.
- Designed a clean and user-friendly interface to improve user experience.

Education

B.Tech in Computer Engineering

Marwadi University, Rajkot, Gujarat

2022-2026

Higher Secondary

RNP Public School

2020-2021

Certifications

- Python Data Structures
- Database Programming with SQL
- NDG Linux Essentials – Cisco Networking Academy
- CCNAv7: Introduction to Networks
- CCNAv7: Switching, Routing, and Wireless Essentials
